***Election/Restriction***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I: claims 51-64, 82-84 and 89**, drawn to a syringe comprising a mixing tip and a cartridge wherein said mixing tip is integrally formed as one part with said cartridge.

**Group II, claims 65-68, 82-84 and 89**, drawn to a syringe comprising a mixing tip and a cartridge wherein said mixing tip is connectable to said cartridge.

**Group III, claims 70-81, 82-84 and 89**, drawn a syringe comprising a static mixer and a cartridge, wherein said static mixer is integrally formed with said cartridge

**Group IV, claims 85-88, 82-84 and 89**, drawn to a syringe comprising a mixing tip and a two-compartment cartridge with connectable passageways.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- i. Groups II-IV lack the mixing tip being integrally formed with the cartridge claimed in group I.
- ii. Groups I, and III-IV lack the mixing tip being connectable to the cartridge claimed in group II.

iii. Groups I-II, and IV lack the static mixer being integrally formed with the cartridge claimed in group III.

iv. Groups I-III lack the two-compartment cartridge with connectable passageways claimed in group IV.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HAO D. MAI whose telephone number is (571)270-3002. The examiner can normally be reached on Monday-Friday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cris Rodriguez can be reached on (571) 272-4964. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
